Arabian Travel Market 2008 - Stuttgart ties up with CEDARS Hospital in Dubai

Arabian Travel Market (ATM) is the industry's leading travel and tourism exhibition dedicated to showcase the business potential within the Middle East and the pan Arab region. In line with the great demand of medical travel, Klinikum Stuttgart in cooperation with Stuttgart-Marketing GmbH tied up with CEDARS Jebel Ali International Hospital to offer first class medical treatment combined with attractive tourism offers in southern Germany.

Launched during the ATM, CEDARS Jebel Ali International Hospital offers various packages for check-ups, general surgery and plastic surgery. The hospital is located in the heart of new Dubai next to the Jebel Ali Free Zone and comprises specialties ranging from allergy to occupational health, laparoscopic surgery to cardiology and oncology and gears to grow into a University Hospital within the next four years. Its partner hospital in Germany, Klinikum Stuttgart, offers tailor-made check-up packages for patients from the Arab region including internal medicine, cardiology, radiology and blood counts issued by the institute for clinical chemistry. Additionally, Klinikum Stuttgart prepared special packages which focus on the prevention of illnesses, such as cancer, incontinence, skin diseases and birth control.

If the patient decides on a treatment and check-up in Stuttgart, he can choose between numerous hotels and residential apartments which will make the stay in Germany comfortable and convenient for him and the escorts. Special arrangements like a private viewing of Breuninger, Stuttgart's flagship fashion and lifestyle store, a guided visit to the Lake Constance or to the Mercedes-Benz-Museum can be easily organized through Stuttgart Marketing GmbH. As per the old saying, a healthy mind creates a healthy body; the individual medical packages aim to provide the utmost service, treatment and relaxation to the patients.

Please visit us at the Dubai World Trade Center, Zabeel Hall, booth no. EU 602, from May 6th to May 9th 2008.
