

CEDARS INTERNATIONAL

NEWSLETTER February 2008

CEDARS International website now online in German

Since January of this year the German version of CEDARS International website is online.

On www.cedarsinternationalgroup.com you will find detailed information about CEDARS International, project details, partners, media presence and all latest news.

Flashback Arab Health

From the 28th until the 31st January 2008 the world's largest health exhibition took place at the Dubai International Exhibitions Centre, where also CEDARS International was represented. The management of CEDARS International together with Klinikum Stuttgart informed about the current project status. The four exhibitions days were a great success and many new connections could be built.

Partnership with Incentive MED

On the occasion of a delegation visit to Germany earlier this year, CEDARS International entered into a partnership agreement with Incentive MED from Erbach. The cooperation agreement was signed in Stuttgart by the management board of CEDARS International and Mr. Dirk Runschke, Managing Director of Incentive MED. Incentive MED leads, among others, an officially recognized rescue service and an academy of health care in Germany. Since 2004 Incentive MED is also represented in Abu Dhabi, where they train EMS Paramedics for the Ambulance Department of the Abu Dhabi Police with great success. EMS Paramedics are highly qualified and skilled personnel, especially trained for preclinical emergency, who are working under the direct supervision of experienced doctors by following international standards. CEDARS International is looking forward to a successful cooperation with Incentive MED. Further information is available on www.incentive-med.com.
